

Only Ofry Ruben

I have been appreciating and creating art since early childhood. In grade school and beyond I would design and make my own clothes, purses, and jewelry. And orders from friends, schoolmates and their families kept me busy. I have painted since childhood and experimented with multiple techniques and styles as I experienced and absorbed the rainbow of cultures that surrounded me in my life's path through the Middle East and Europe.

Creating art is my way of exploring my innermost emotions, dreams, and wishes. It is my way of understanding and responding to the world around me. It is my way of granting joy, energy, peace, hope and beauty to all those who touch my world and my life.
